Simon Horrocks : A Race Of Minds (Kosmos) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Race Of Minds (Kosmos):

1 of 1 people found the following review helpful. Ready...Set...READ!!!By Linda R.First I watched KOSMOS online and then I read this which is a continuation of the film. Fast paced, fun read! Also check out his film Third Contact!0 of 0 people found the following review helpful. the best.By Paula E.Simon Horrocks, genius, produces another gem.1 of 1 people found the following review helpful. Well paced sci-fi (psy-fi?) "race"By Hi.I typically end up having to squeeze my reading in during those little bite size chunks of time between appointments or what have you. And oh my gosh, I kept finding myself actually wishing that the wait times were a bit longer. The story takes off right away and just keeps moving without leaving the reader in the dust. The sense of confusion, urgency, angst, and frustration is so well written. Quite the page turner.

Hoping to discover why Amy (his wife) has fallen into a coma, Philip connected their minds to view her ldquo;psi complexesrdquo; ndash; unconscious thoughts out of reach of traditional technology.Philip now finds himself in a game, set up by the shady Louis Lewis ndash; he must unlock key memories within Amyrsquo;s mind to bring her out of a coma ndash; but what he uncovers may alter the future of their relationship, of mankind and the planet. Meanwhile, Lewis and Hexo-G ndash; a maverick tech-wizard ndash; must stay one step ahead of Core, a company whose wealth and power is built on reading and controlling minds. But why do Amyrsquo;s parents want her life support switched off? Why are they so interested in Amy and Philiprsquo;s 3 year old son, Tom? Who is the man with no memory who wakes in the basement of a destroyed building? Can you unlock the secrets of the Kosmos in Volume 1 - A Race Of Minds?
